Rate Information

As a Lakeland Electric customer we are proud to offer you some of the lowest electric rates in the State of Florida. In fact, Lakeland Electric currently holds the second lowest electric rates in the state!

- Residential Rate Info
- Commercial Rate Information

Standard Rate
 Most Lakeland Electric customers are billed for their electricity usage based on the Standard Rate Plan. This plan uses three different levels or "tiers" and looks like this:

Monthly Charge (Rates as of October 2 2013)

- Customer Charge \$8.00

Energy Charge

- 1,000 kWh or less 4.882¢ per kWh (*)
- 1,001 to 1,500 kWh 5.382¢ per kWh (*)
- More than 1,500 kWh 5.882¢ per kWh (*)

Taxes and other surcharges may apply. The fewer kilowatt hours you use, the less your bill will be each month.
 (*) The Residential rate contained in the Lakeland Electric Rate Tariffs is subject to an additional 0.14¢/kWh for Smart Grid Charge

Minimum Bill

- Customer Charge
- Demand Charge when applicable
- Adjustments* (see data below)

Adjustments

- Fuel Charge 4.085¢/kWh as of 10/02/2013
- Environmental Charge .26830¢ per kWh
- Smart Grid Charge .014¢ per kWh

Florida Gross Receipts & Regulatory Tax

- 10% Utility Tax Inside City Limits
- 10% Surcharge outside of City Limits
- Polk County Public Service Tax
- Florida State Sales Tax

ORDINANCE NO. 12-1435

AN ORDINANCE AMENDING SECTIONS 20-26 AND 20-46 OF THE CODE OF ORDINANCES OF THE CITY OF HAINES CITY, FLORIDA; CHANGING THE RATES AND CHARGES RELATIVE TO THE FURNISHING OF WATER AND WASTEWATER SERVICES BY THE CITY; AMENDING SECTION 20-42 OF THE CODE OF ORDINANCES OF THE CITY OF HAINES CITY, FLORIDA; CHANGING THE RECLAIMED WATER RATES FOR LARGE RECLAIMED WATER USERS; PROVIDING FOR SEVERABILITY; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City of Haines City, Florida, has a municipal water and wastewater system; and

WHEREAS, the City of Haines City, Florida, previously issued long-term debt for water and wastewater system capital improvements; and

WHEREAS, pursuant to the requirements of borrowing funds, the City has considered a Capital Finance Plan which recognizes the pledge of revenues received from monthly water and wastewater rates to fund the operations of the water and wastewater system and pay for the indebtedness; and

WHEREAS, the revenue generated by the rates and charges to the users of the water and wastewater system are not projected to be sufficient to pay ongoing operation and maintenance expenses, debt service requirements and capital requirements of the municipal water and wastewater system; and

WHEREAS, the City deems it desirable to increase the current rates and charges relative to the furnishing of water and wastewater in an effort to provide the municipal water and wastewater service as economically as practical for the basic needs of the users; and

WHEREAS, the City has scheduled, noticed and conducted the necessary public hearing to consider the recommendations contained in the consultant's 2009 study and all other relevant evidence in accordance with Florida law; and,

WHEREAS, the City previously adopted rate adjustment clauses calling for annual increases in water and wastewater rates and charges based upon Florida Public Service Commission indexing, which is 2.41% as set forth in Docket Number 120005-WS, Order No. PSC-12-0068-PAA-WS.

NOW, THEREFORE, BE IT ENACTED BY THE CITY COMMISSION OF THE
CITY OF HAINES CITY, FLORIDA:

Section 1. Modification to Water Rates and Charges. Current
Section 20-26 of the Code of Ordinances of the City of Haines City, Florida, is hereby
repealed. In its place, a new Section 20-26 is hereby adopted to read as follows:

"Section 20-26. Water Rates and Charges.

The City hereby adopts the following rates, charges and regulations as a
condition to the provision of water service by the City to customers as follows:

(1) **Definitions:**

(a) "Residential" means an individual dwelling unit designed for more
or less permanent household occupancy which would include individual
cooking and bathing facilities. Examples are a single family home,
efficiency apartment unit, cooperative apartment unit, duplex unit,
condominium, and multi-family residential building unit.

(b) "Commercial Service" means a use of land or a building for non-
residential purposes, but shall include a residential use which has
identifiable "general service" characteristics, as the term is used herein,
both of which use the same water meter.

(c) "Public Authority" means a land use or a building for governmental
purposes associated with the City of Haines City or any other public use
located within the City limits.

(d) "Irrigation Service" means an individually-metered water service or
reclaimed water service used exclusively for lawn sprinkling, irrigation of
pervious surfaces, and other related service. Irrigation service can be
utilized by both residential and commercial service customers.

(e) "Equivalent or Dwelling Unit" means a general service use unit
which has a demand for water at about the same amount level of demand
as that allocated to the average residential unit. The equivalent or dwelling
unit(s) shall be estimated and rounded upward in whole number as
determined by the City Manager or his/her designee.

(f) "Equivalent Residential Unit" or "ERU" generally represents the
equivalent usage requirements of a single-family residential customer. For
the purpose of this ordinance, an ERU will have an assigned value of 1.0.
One (1) ERU is deemed to be equal to a flow of three hundred thirty (330)
gallons per day (GPD) for water. The assumed ERU gallonage has been
based on statistical data establishing an average residential use as
reflected in the City of Haines City's Water and Wastewater System
Master Plan dated October 5, 2000, and it is recognized that the uses for

some types of residential units may be greater or smaller than the average assumed for this calculation.

(2) **Regular Potable Water Service Rates:**

(a) **Individually-Metered Residential Service**

Applicability: Potable water service in residential dwelling units with individual water meters.

Rate per Monthly Billing Period: The monthly rates for service include a base service charge and a water consumption charge. The monthly bill for service rendered to an individually-metered residential service shall equal the sum of the Base Service Charge, which serves as the minimum bill, and the water consumption charge based on all metered water consumption delivered to the premises.

Base Service Charge: The base service charge for all metered or active accounts shall reflect the applicable rates shown in the table below. The base service charge does not include an allowance for water consumption.

Description	Effective October 1, 2012
<u>Individually-Metered Residential - Inside Water</u>	
Base Service Charge - All meter sizes	\$9.51

Consumption Charge: The rate for each one thousand (1,000) gallons or fraction thereof of water that passes through the customer's service meter shall be determined in accordance with the following schedule.

Description	Effective October 1, 2012
<u>Individually-Metered Residential - Inside Water</u>	
Consumption Charge	\$0.77
0 - 3,000 gallons	1.00
3,001 - 10,000 gallons	1.54
10,001 - 20,000 gallons	2.21
20,001 - 30,000 gallons	3.17
Above 30,000 gallons	

(b) Master-Metered Residential, Commercial, and Public Authority Service

Applicability: For potable water service to residential dwelling units whereby one single water meter serves more than one principal residential dwelling unit and for all non-residential units.

Rate per Monthly Billing Period: The monthly rates for service include a base service charge and a water consumption charge. The monthly bill for service rendered to a master-metered residential, commercial or public authority service shall equal the sum of the Base Service Charge, which serves as the minimum bill, and the water consumption charge based on all metered water consumption delivered to the premises.

Base Service Charge: The base service charge for all metered or active accounts shall reflect the applicable rates shown in the table below. The base service charge does not include an allowance for water consumption.

Description	ERU Factor	Effective October 1, 2012
<u>Master-Metered Residential, Commercial, and Public Authority Service - Inside Water</u>		
Base Service Charge	1.0	\$9.51
3/4" Meter	2.5	23.79
1" Meter	5.0	47.57
1.5" Meter	8.0	76.11
2" Meter		
	16.0	152.22
3" Meter	25.0	237.85
4" Meter	50.0	475.69
6" Meter	80.0	761.11
8" Meter		

Consumption Charge: The rate for each one thousand (1,000) gallons or fraction thereof for all quantities of water that passes through the customer's service meter shall be charged as follows:

Description	Effective October 1, 2012
<u>Master-Metered Residential, Commercial, and Public Authority Service - Inside Water</u>	
Consumption Charge - All metered water	\$1.52

(b) Master-Metered Residential, Commercial, and Public Authority Service

Applicability: For potable water service to residential dwelling units whereby one single water meter serves more than one principal residential dwelling unit and for all non-residential units.

Rate per Monthly Billing Period: The monthly rates for service include a base service charge and a water consumption charge. The monthly bill for service rendered to a master-metered residential, commercial or public authority service shall equal the sum of the Base Service Charge, which serves as the minimum bill, and the water consumption charge based on all metered water consumption delivered to the premises.

Base Service Charge: The base service charge for all metered or active accounts shall reflect the applicable rates shown in the table below. The base service charge does not include an allowance for water consumption.

Description	ERU Factor	Effective October 1, 2012
<u>Master-Metered Residential, Commercial, and Public Authority Service - Inside Water</u>		
Base Service Charge		
3/4" Meter	1.0	\$9.51
1" Meter	2.5	23.79
1.5" Meter	5.0	47.57
2" Meter	8.0	76.11
3" Meter	16.0	152.22
4" Meter	25.0	237.85
6" Meter	50.0	475.69
8" Meter	80.0	761.11

Consumption Charge: The rate for each one thousand (1,000) gallons or fraction thereof for all quantities of water that passes through the customer's service meter shall be charged as follows:

Description	Effective October 1, 2012
<u>Master-Metered Residential, Commercial, and Public Authority Service - Inside Water</u>	
Consumption Charge - All metered water	\$1.52

(b) Master-Metered Residential, Commercial, and Public Authority Service

Applicability: For irrigation water service in residential dwelling units which one single water meter serves more than one principal residential dwelling unit or for non-residential units, which is individually-metered and in addition to the regular water meter serving the premises.

Rate per Monthly Billing Period: The monthly rates for service include a base service charge and a water consumption charge. The monthly bill for service rendered to a master-metered residential, commercial or public authority service shall equal the sum of the Base Service Charge, which serves as the minimum bill, and the water consumption charge based on all metered water consumption delivered to the premises.

Base Service Charge: The base service charge for all metered or active accounts shall reflect the applicable rates shown in the table below. The base service charge does not include an allowance for water consumption.

Description	ERU Factor	Effective October 1, 2012
<u>Master-Metered Residential, Commercial, and Public Authority Service - Inside Irrigation</u>		
Base Service Charge		
3/4" Meter	1.0	\$ 9.51
1" Meter	2.5	23.79

Above 1,600,000 gallons	3.17

(4) *Annual Rate Adjustment:* Effective with bills rendered on or after October 1, 2013 (Fiscal Year 2013/2014), the City Manager may adjust the monthly base charges and consumption charges for water and irrigation services to reflect changes in operating costs without further action by the City Commission. Prior to implementation thereof, notice of such rate adjustments shall be promptly provided by the City Manager to the City Commission. The City Manager shall utilize the "price increase index" for major categories of utility operating costs which is annually adopted

Master Plan dated October 5, 2000; and it is recognized that the uses for some types of residential units may be greater or smaller than the average assumed for this calculation.

(2) *Regular Wastewater Service Rates.*

(a) Individually-Metered Residential Service

Applicability: Wastewater service for all purposes in residential dwelling units which receives water service from the City of Haines City with an individual water meter.

Rate per Monthly Billing Period: The monthly rates for service include a base service charge and a wastewater consumption charge. The monthly bill for service rendered to an individually-metered residential service shall equal the sum of the Base Service Charge, which serves as the minimum bill, and the water consumption charge based on all metered water consumption delivered to the premises to a maximum of 10,000 gallons per month.

Base Service Charge: The base service charge for all accounts served by the City's wastewater system shall be charged based on the following schedule per bill rendered. The Base Service Charge does not include an allowance for wastewater consumption.

Description	Effective October 1, 2012
<u>Individually-Metered Residential - Inside Wastewater</u>	
Base Service Charge - All meter sizes	\$17.47

Consumption Charge - A rate for each one thousand (1,000) gallons or fraction thereof for all quantities of water passed through the customer's service meter shall be charged based on the following schedule.

Description	Effective October 1, 2012
<u>Individually-Metered Residential - Inside Wastewater</u>	
Consumption Charge	\$ 4.95
0 - 10,000 gallons	0.00
Above 10,000 gallons	

In no event shall the monthly consumption charge for individually metered residential service be applied to any monthly metered water consumption in excess of 10,000 gallons.

(b) Master-Metered Residential, Commercial, and Public Authority Service

Applicability: For wastewater service for all purposes in residential dwelling units, which receive water service from the City of Haines City where one single water meter serves more than one principal residential dwelling unit or for all purposes considered as non-residential.

Rate per Monthly Billing Period: The monthly rates for service include a base service charge and a wastewater consumption charge. The monthly bill for service rendered to a master-metered, commercial or public authority service shall equal the sum of the Base Service Charge, which serves as the minimum bill, and the water consumption charge based on all metered water consumption delivered to the premises.

Base Service Charge: The base service charge for all accounts served by the City's wastewater system shall be charged based on the following schedule per bill rendered, The Base Service Charge does not include an allowance for wastewater consumption.

Description	ERU	Effective October 1, 2012
<u>Master-Metered Residential Commercial, and Public Authority Service - Inside Wastewater</u>		
Base Service Charge		
3/4" Meter	1.0	\$ 17.47
1" Meter	2.5	43.88
1.5" Meter	5.0	87.36
2" Meter	8.0	139.77
3" Meter	16.0	279.54
4" Meter	25.0	436.78
6" Meter	50.0	873.56
8" Meter	80.0	1,397.69

Consumption Charge: A rate for each one thousand (1,000) gallons or fraction thereof for all quantities of water passed through the customer's service meter shall be charged based on the following schedule.

Section 3. Modification of Reclaimed Water Rates and Charges. A new Section 20-42 of the Code of Ordinances of the City of Haines City, Florida, is hereby adopted to read as follows:

"Section 20-42. Reclaimed Water Rates and Charges.

(1) The City has begun the development of a reclaimed water distribution system for purposes of ultimately delivering reclaimed water throughout its service area. Initially, however, the City's reclaimed water distribution system will be extended to take advantage of certain large users of reclaimed water so as to develop the system in a financially feasible manner. Therefore, the City adopts as initial reclaimed water rates those rates set forth hereinbelow based upon existing data and analysis. Establishing these initial rates shall not in any way bind the City to either the amounts or methodology utilized at this time. These initial rates are set forth below and apply initially to a single, large-scale user of reclaimed water.

(a) Large User Service

Applicability: For bulk reclaimed water service provided on either a Non-interruptible Basis or an Interruptible Basis.

Rate per Monthly Billing Period: The monthly rates for service include a reclaimed water consumption charge on all metered reclaimed water consumption delivered to the premises.

Description	Effective October 1, 2012
<u>Non-Interruptible Service</u> Consumption Charge - All metered water	\$0.57
<u>Interruptible Service</u> Consumption Charge - All metered water	\$0.39

(2) *Annual Rate Adjustment:* Effective with bills rendered on or after October 1, 2013 (Fiscal Year 2013/2014), the City Manager may adjust the monthly base charges and consumption charges for water and irrigation services to reflect changes in operating costs without further action by the City Commission. Prior to implementation thereof, notice of such rate adjustments shall be promptly provided by the City Manager to the City Commission. The City Manager shall utilize the "price increase index" for major categories of utility operating costs which is annually adopted by the Florida Public Service Commission as required by Florida Statute. The rate adjustment shall be based upon the application of the index to the existing user rates.

(3) *Out of City Rates:* For large reclaimed water users situated outside the corporate limits of the City and receiving such service(s) from the City, such users shall pay for comparable services or usage as listed under this Section, the identical and applicable rate therein stated, plus twenty-five percent (25%).

Water Rates

Utilities Rates and Fees

Dishonored Payment Fees to Utilities - Please Note: Return checks, drafts, and rejected credit card payment fees are established by the Polk County Office and are adjusted from time to time.

Returned Check, Draft and Rejected Credit Card Payment Amount	Fee Charged
Checks/Drafts \$50.00 or Less	\$25.00
Checks/Drafts \$51.00 - \$300.00	\$30.00
Checks/Drafts \$301.00 - \$800.00	\$40.00
Checks Greater than \$800.00	5% of the Face Value of the Check

POLK COUNTY UTILITIES POLICY REGARDING UNAUTHORIZED USE AND / OR TAMPERING WITH COUNTY EQUIPMENT
 Polk County Ordinance No. 03-21, Ref. Doc. 6(B), Section 4.11, prohibits tampering with County equipment. Tampering includes, but is not limited to:

- Cutting Locks on Meters
- Causing Damage to the Meter or Meter Box
- Theft of Service by any Person on a Customer's Premises or any Evidence of the Same

Tampering charges may be assessed in addition to reconnection charges, replacement cost of damaged parts and/or equipment, estimated cost of water usage not recorded, based on current rates. Chapter 812, Section 812.14, of the Florida Statutes further provides for prosecution of any person(s) who tamper with, knowingly make any connection with, use or receive the benefit from a public utility service. When a meter has been removed for tamper customer applies for service, the appropriate charges for installation of a meter will be assessed.

Conviction of any violation provides for penalties in the amount equal to three times the amount of service unlawfully obtained or \$1,000.00, which Florida Statute 125.69 provides for prosecution which may result in fines up to \$500.00 and 60 days in the County jail for each conviction.

City of Bartow, FL : Residential Refuse Collection

RESIDENTIAL REFUSE COLLECTION

How do we keep Bartow Clean & Beautiful?

The **Solid Waste Department (SWD)** provides waste collection services to over 5,600 households. Your solid waste account is automatically opened when your electric or water service is activated. A solid waste collection charge of \$18.75 will appear on your monthly utility bill. This collection charge is not a tax; it is a fee for waste collection services provided by the City of Bartow. SWD collects garbage, recyclables, yard waste, junk, furniture, tires, appliances, electrical items, dead domestic animals from City right-of-ways and much more. SWD provides roll-off containers for construction and demolition debris removal. For more details, please see Recycling and Roll-Off Service webpages.

The City uses automated trucks to collect all waste **ONCE-PER-WEEK**. Garbage, yard waste, junk, appliances, and recyclables are collected on the same day, once-per-week. Please see the **Residential Refuse Collection Day Directory** for your neighborhood's collection day.

After opening your utility account, two City-provided Roll-Out-Carts are delivered to your residence; one for garbage collection and one for recycling. Each cart bears a serial number that will be assigned to your property address and shall remain at the assigned property regardless of whether you sell or move.

- Additional carts are available for \$5 per cart, per month.
- For \$30.75 per month, optional backyard collection service is available.
- Customers terminating or transferring a utility account and not returning assigned cart will be charged an additional \$70 on the final utility bill.
- You must remove your cart from the curb by dark on the day following collection or be fined \$5 per occurrence.

Need a roll-out-cart?

Email SWD at solidwaste@cityofbartow.net to request (1) cart for garbage and (1) cart for recycling.

Need your roll-out-cart repaired or replaced?

<http://www.cityofbartow.net/index.aspx?page=173>

10/29/2013

City of Bartow, FL : Residential Refuse Collection

No problem! All city-provided Roll-Out-Carts are covered by SWD's lifetime maintenance and replacement program.

1. Email SWD at solidwaste@cityofbartow.net.
2. Leave your damaged cart at the curb and for no additional charge the SWD will repair or replace the city-provided Roll-Out-Cart.
3. A police report will be required to replace a stolen or vandalized Roll-Out-Cart at no charge.
4. A Roll-Out-Cart replaced due to customer's negligence will require a \$6 per month charge for twelve months to be added to customer's utility billing account.
